

*Masks, filters, or suction tubes alone can't protect enough*

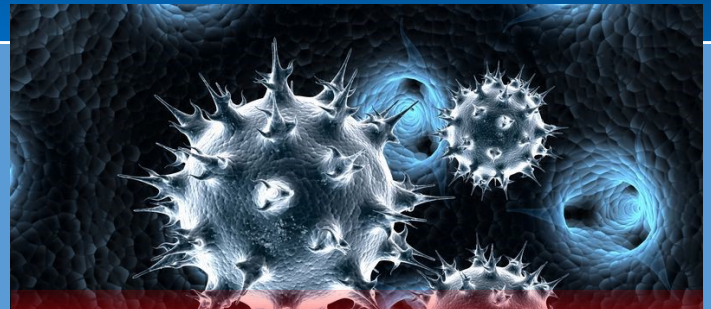

## Protect Patients & Dental Staff

**Mercury, Bacteria, Virus infected  
micro-organisms, Volatile Organic  
Compounds, Dust, & Debris**

### Don't Breathe Airborne Dangers

Give extra protection for sensitive  
pre-natal or immune compromised

Doctors at Pfizer Pharmaceuticals found:

**“no alive microorganisms...it seems  
that microorganisms explode and dis-  
integrate themselves when touching  
the positive collector.”**

**Our technology captures or eliminates what vacuums, HEPA & carbon filters can't**

# Unrivaled Effectiveness

Patent pending technology uses the electrical nature of all life to remove airborne contaminants better than mechanical filters. **Independent labs show more than 99.99994% of bacteria are killed. Microbes are dead almost instantly.**

Independent testing has proven the ability of this unique technology to **remove mercury vapor from the air.**
